

Extensometer Tester

This is a tester to measure horizontal extension by putting compressive load to cylindrical concrete specimen for calculation of Poisson ratio.

Model	QREMT-801
Sample	Ø15 × 30
Measuring Magnification	2 times
Dial Gage	1 × 0.01 mm
Material	Aluminum alloy
Fitting Bar	1 set
Accessories	Box
Dimension (mm)	300 × 300 × 300
Weight (kg)	5

Compressor Meter Tester

This is a tester to measure axial strain by putting compressive load to cylindrical concrete specimen for calculation of elastic modulus of the concrete.

Model	QRCMT-801
Sample Type	Ø15 × 30
Support Points	200 mm
Measuring Magnification	2 times
Dial Gage	1 × 0.01 mm
Material	Aluminum alloy
Fitting Bar	1 set
Accessories	Box
Dimension (mm)	300 × 300 × 350
