

Concrete Digital Test Hammer

This tester is portable type to measure concrete strength in processing of curing after concrete casting.

Model	QRCDH-803
Type	E. Schmidt (R-7500)
Measuring Range	100 ~ 600 kg/cm ²
Impact Energy	0.225 m.kg
Indication Model	Digital, printer
Standard Anvil Value	80 ±2R
Dimension	130 × 126 × 353 mm
Accessories	Case, scoch stone, recording paper
Weight (kg)	1.9

Concrete Test Hammer Anvil

This anvil is used to check and compare concrete test hammer.

Model	QRTHA-801
Standard Value	Ra 80
Hardness	More than HRC 52
Impact Energy	Special steel
Accessories	Case
Weight (kg)	20
