

Pull Out Tester

This is a tensile tester after bolting to the wall of slope or the wall of tunnel.

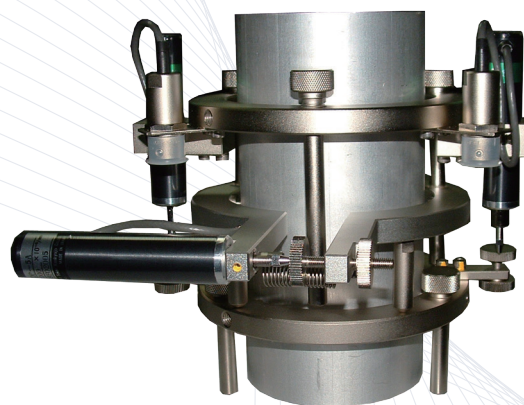

Model	QRTT-801	QRTT-802
Type		Hydraulic
Load Indication	Digital	Analog
Max. Load (kN)		100
Min. Load Capacity (N)		10
Load Sensor		Pressure Gage
Accessories		Nut
Dimension (mm)		300 × 300 × 400
Weight (kg)		60

Poisson Ratio Tester

This is a tester to measure horizontal extension and axial strain by putting compressive load to cylindrical concrete specimen for calculation of Poisson ratio and elastic modulus.

Model	QRPRA-801	QRPRA-802
Type	Analog	Digital
Sample Type		Ø15 × 30
Support Points		200 mm
Measuring Magnification	2 times	1:1
Dial Gage	1 × 0.01 mm	0.001 mm
Material		Aluminum alloy
Fitting Bar		1 set
Accessories		Box
Dimension (mm)		400 × 400 × 350
