

Friction Tester

This is a tester to measure the surface friction resistance of the road, footway, runway, floor, tile, epoxy floor.

Model	QRFT-1101
Weight	30 kg
Base Plate	8 kg
Accessories	Removable scale, rubber slider

Asphalt Penetrometer

This is an infiltration tester for the semisolid and the solid bituminous material.

Model	QRAP-1101
Scale	0 ~ 50 mm
Penetration Needle	about Ø1 mm
Weight Needle	50 g (Rod & needle)
Container	Ø55 × 35, Ø70 × 50 mm Aluminum
Transfer Dish	Ø110 × 90 mm Glass
Tripod	1ea

Ductility Testing Machine

This is a tester to measure the ductility of the bituminous material.

Model	QRDTM-1101
Operation	Motor type
Ductility Speed	50 mm Gnomon & scale
Movable Carriage Range	0 - 150 mm
Ductility Mold	Bracket, brass-3ea
Water Bath Heater	Auto Temp. controller 0 - 50 °C, 1 kW
Dimension	About 1 750 × 210 × 160 mm
Power	1P, AC 220 V
