

Stability Compaction Mold

This mold is used to harden asphalt sample.

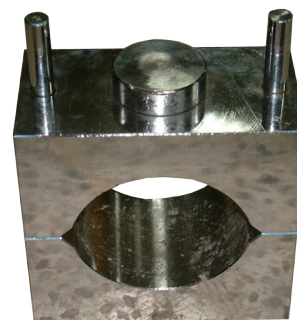

Model	QRCM-1101
Inside Diameter (mm)	Ø101.6

Stability Mold

This mold is used to compress the hardened sample.

Model	QRSM-1101
Type	Partition type
Dimension (mm)	Ø100 × 12.7 mm

Theory Density Tester

This tester is to decide maximum theoretical gravity and density of the non-hardening bituminous pavement mixtures.

Model	QRTDT-1101
Receptacle	about 4 ℓ (Ø160x200 mm) Stainless, acrylic cover, one-touch clamp
Vacuum Pump	-760 mmHg (1 kgf/cm ²)
Water Trap	110 × 170 mm - 3 ea
Vibration Table	Vibration speed variable type
Dimension (mm)	Ø100 × 12.7 mm
