

B. O. D. Incubator

This incubator is used to cultivate microorganism and bacteria and test resistance of food.

Model	QRNCO-781	QRNCO-7150
Temperature	-5 ~ 250 °C	
Control	Digital PID controller	
Internal Dimensions	500 × 500 × 600	500 × 500 × 1 000
External Dimensions	665 × 765 × 1 190	665 × 765 × 1 590
Internal Material	SUS 304 polished	
External Material	Powder coating	
Power	220 V, 1.1 kW	220 V, 1.1 kW

Autoclave

This device is used to sterilize waste material of metal and test.

Model	QRAU-780	QRAU-7100
Temperature	125 °C	
Control	Digital PID controller	
Pressure	1.5 kg/cm ²	
Capacity (ℓ)	80	100
Internal Material	SUS 304 polished	
External Material	Powder coating	
External Dimensions	560 × 650 × 1 100	600 × 710 × 1 200
Power	220 V, 3 kW	220 V, 4.6 kW
