

Hand Roller

This hand roller is used to keep constant pressure for regular adhesion specimen.

Model	QRHR-501
Width	45 mm
Load	2 kg

Motorize Poller

This roller is motor type device for production of specimen.

Model	QRMP-501
Speed	50 mm/sec
Load	2 kg
Movement Range	200 mm

Auto Cross Cutter

This cutter can cut specimen automatically as thickness of 1, 2 mm.

Model	QRACC-501
Speed	300 mm/min
Sample Table	100 × 100 mm
Movement Range	70 mm
Cutting Interval	1, 2 mm
Load	500 g
