

Safety Dynamic Loading Test Dummy

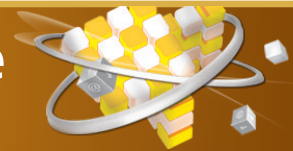

This is a dummy for drop test of safety belt.

Model	QRSD-301
Accuracy	± 1 kg
Material	Aluminum
Weight (kg)	100

Safety Belt Dynamic Load Testing Machine

This testing machine is used for drop test of safety belt or belt shock absorber.

Model	QRSHSA-301	QRSHSA-302
Falling Weight Capacity (kg)	100	
Accuracy	Within ± 0.1 % of the indicated load	
Operation Type	Automatic	Manual
Test Height	7 000 mm	
Discharge Equipment	Electronic equipment	
Testing Control	16 Bit	
Displacement Measurement	Laser automatic	Steel scale manual
Power	1P, AC 220 V, 60 Hz	
Power Consumption (kW)	1	
Frame Dimension (mm)	3 500 × 3 500 × 13 000	
Power	3P, AC 220 or 380 V, 60 Hz	
Hoist	490 kg (left, right, up, down)	
Power Consumption (kW)	3
