

Automatic Moisture Content Tester

This tester used to measure moisture content in soil automatically and can save time and electric charge and record and store and manage all data by computer.

Model	QRTAMM-1202
Temperature	Max. 250 °C
Control	Digital PID controller
Weight Measurement	Scale 10 kg - 0.1 g
Data Display	10 Channels
Data Record	Exclusive software by touch type computer
Internal Dimensions (mm)	2 000 × 700 × 550, 2 layer
External Dimensions (mm)	2 800 × 850 × 2 200
Internal Material	SUS 304
External Material	SS400 Powder coating
Insulation	Ceramic wool+ glass wool
Door Packing	High Temp. grade foamed silicone rubber
Safety Device	Over Temp. limit
Power (kW)	1P, 220 V, 15 kw
